CS Fundamentals

Core Subjects: Data Structures and Algorithms, OOP, Operating Systems, DBMS, Computer Networks

Practices: Problem Solving, Clean Code, Git, Agile Collaboration

Projects

ShopEase — MERN E-commerce — Team: 1 — GitHub — Live

Dec 2023

- Architected a MERN stack e-commerce site with secure auth, admin dashboard, and cart functionality.
- Designed MongoDB schemas for products, orders, and users ensuring seamless backend integration.
- Built dynamic UI using Shadcn components; enabled real-time cart operations.

Product Crawler — Node.js, Playwright — GitHub

July 2025

- Built an automated tool that scrapes prices from 100+ Amazon product pages using Playwright.
- Implemented headless browsing and fault-tolerant scraping logic; outputs JSON for dashboards.

Soft Skills

Calm Dedicated — Quick Learner — Team Player

Certifications

- Complete Web Development Bootcamp by Angela Yu
- AWS Academy Cloud Foundations (Credly Verified)
